

## The AK240 Mac OS X USB Driver

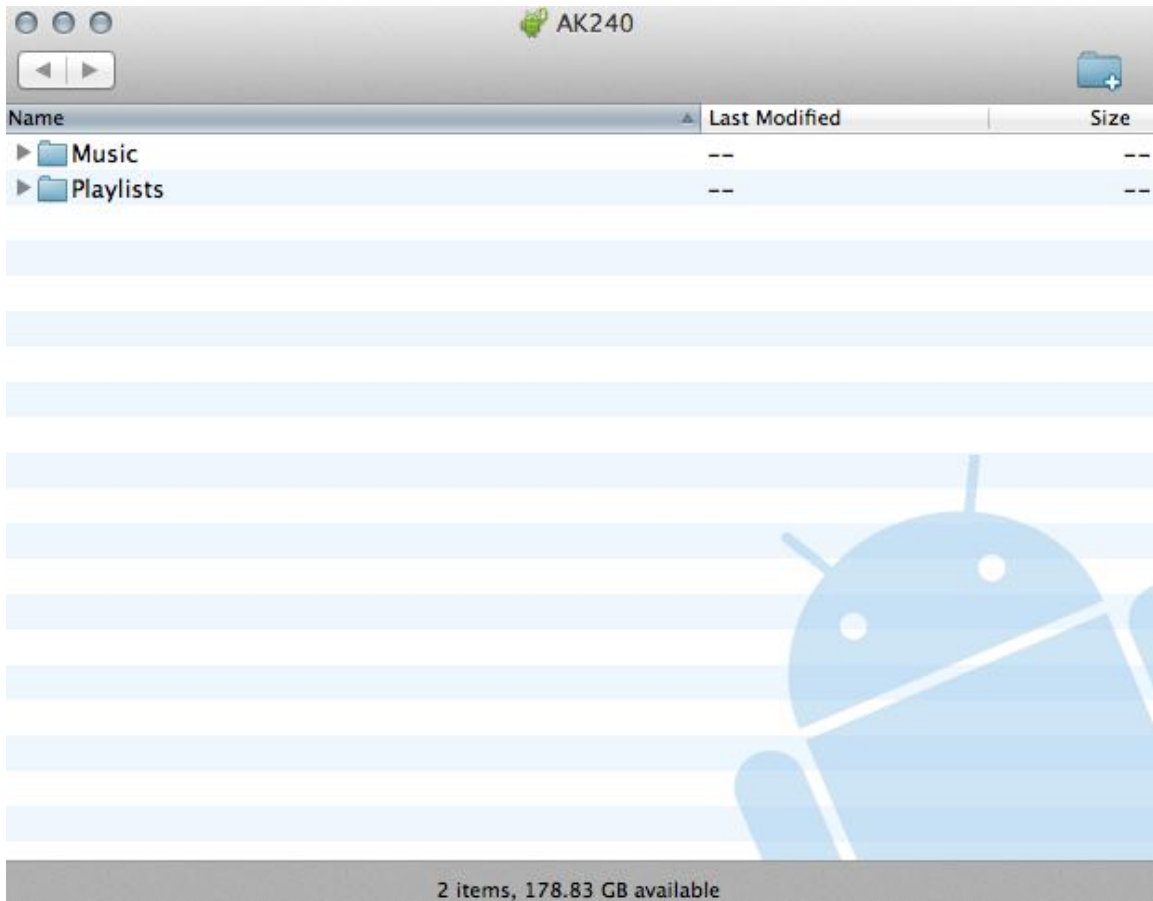

---

### Installing the AK240 Max OS X USB Driver

1. Power on & connect the AK240 to the Mac using the supplied Micro-USB cable.
2. Open a browser and direct to: <http://www.android.com/filetransfer> to download the “Android File Transfer.app” file (AK240 USB Driver) for Mac.
3. Once finished downloading, double click “androidfiletransfer.dmg” and drag Android File Transfer.app icon to the Applications folder over to install the driver.

4. Once the driver has finished downloading, the AK240 window will launch once it connected to your Mac. Drag and Drop your music folders/files to the “Music” folder of the AK240 to start uploading files.

## Quick Notes:

---

- For an optimal connection, quit all unnecessary programs before connecting the device to the computer.
- Do not use a Micro-USB cable other than the one supplied with the device to prevent any malfunction.
- All subsequent connections to a Macintosh computer will not require installation of the driver.
